PROFESSIONAL SUMMARY

Full Stack Developer and B.Tech CSE student with hands-on experience in the **MERN stack**, API integration, and secure authentication systems. Proficient in **React.js, Node.js, Express.js, MongoDB, and Tailwind CSS**, with a strong focus on building responsive, scalable, and user-friendly web applications. Passionate about optimizing performance, writing clean code, and collaborating in team environments to deliver high-quality software solutions.

SKILLS

- **Programming Languages:** Python, C/C++
- **Frontend:** HTML5, CSS3, JavaScript (ES6+), React.js, Tailwind CSS, Bootstrap, Material-UI
- **Backend:** Node.js, Express.js, RESTful APIs, JWT Authentication, bcrypt
- **Databases & Cloud:** MongoDB, MySQL
- **AI & CS Fundamentals:** Machine Learning, Artificial Intelligence, Data Structures & Algorithms, Operating Systems
- **Tools & Practices:** Git, GitHub, API Integration, CRUD Operations, MVC Architecture
- **Soft Skills:** Effective Communication, Team Collaboration, Problem Solving, Time Management, Adaptability

EDUCATION

I.K. Gujral Punjab Technical University, Kapurthala - B.Tech (Computer Science & Engineering)	2022 – 2026 SGPA: 9.13
Darshan Academy, CBSE — Senior Secondary (XII)	March 2022 Percentage: 77%
Darshan Academy, CBSE — Matriculation (X)	March 2020 Percentage: 87%

PROJECTS

CampusConnect – MERN-based Academic Resource Platform with ML Integration (React, Node.js, Express, MongoDB, Machine Learning)

- Developed a centralized academic portal enabling students to access **notes, syllabus, e-books, and academic resources**.
- Built an **admin dashboard** with full CRUD functionality for managing users, content, and complaints.
- Implemented a **secure complaint management system** to facilitate structured communication between students and HODs.
- Secured authentication and authorization using **JWT and bcrypt**, ensuring safe data handling.

Neighburly – MERN-based Service Marketplace Platform (React, Node.js, Express, MongoDB)

- Designed and developed a service marketplace allowing users to post tasks and connect with nearby service providers.
- Implemented **role-based access control** with separate dashboards for users and taskers.
- Integrated **real-time chat and notification features** to enable seamless communication.
- Built secure backend APIs with **JWT-based authentication** and MongoDB data modeling.

Teacher Feedback Analysis System – MERN-based Evaluation Platform (React, Node.js, Express, MongoDB, Chart.js / Recharts)

- Developed a **student-driven teacher rating and feedback system** to evaluate teaching performance.
- Designed **admin dashboards with graphical analytics**, displaying feedback using charts and performance metrics.
- Visualized ratings and feedback trends using dynamic charts, enabling data-driven performance evaluation.
- Built secure REST APIs for feedback submission and retrieval, ensuring data integrity and scalability.

EXPERIENCE

Intern | GTB Institute– Jalandhar, India (Jun 2024 – July 2024)

- Contributed to **live AI/ML and full-stack MERN projects**, building responsive user interfaces using **React.js, Tailwind CSS, HTML, CSS, JavaScript, and AOS**.
- Designed and developed **end-to-end MERN applications**, implementing RESTful APIs with **Node.js and Express**.
- Improved **ML model accuracy** and Collaborated with **Senior teams** to deploy applications and resolve challenges efficiently.
